## **Cast-iron-cylinder kit Ø 57,5 / Reed intake manifold cylinder**

The Vespa is back and so is the famous Malossi Cylinder Kit!!!

This cast iron cylinder kit, which over the years has undergone significant modifications that have resulted in increased power, is now supplied with an intake manifold.

This is a complete kit, easy to install, requires no modifications or machining of the crankcase or crankshaft, and guarantees optimum performance!

This Kit was designed specifically to deliver maximum performance in combination with POWER EXHAUST art. 3214430.
